1 Introduction

According to Grant Agreement Number 101061037 - PIANOFORTE the objective of the WP6 *Knowledge management, communication, dissemination and impact creation* is to:

- enable bidirectional communication about PIANOFORTE and its results effectively to the broader research community, key stakeholders and the public,
- make PIANOFORTE open calls projects results transferable and accessible to audiences that may use the new knowledge, data and information in their own work, enable use and uptake of results and maximize the impact of the EU-funded research,
- develop practical knowledge management tools that contribute to the integration of national research programs as well as to a sustainable collective memory in the radiation protection field on the basis of open science principles,
- exploit the outputs of PIANOFORTE in order to maximize its impact.

Communication, dissemination, exploitation of results and information sharing are key success factors in achieving the goals of the PIANOFORTE Partnership. The objective of the Task 6.2 “Communication and dissemination” is to facilitate an efficient communication among partnership members and to promote and disseminate the results effectively to the broader research community and key stakeholders. For these purposes, social media such as LinkedIn, social networking service X and YouTube channel are exploited.

The aim of the Deliverable 6.7 is to provide a video about PIANOFORTE partnership explaining basic information about the project and project objectives.
